## VALVES & AUTOMATION

With an in-house Valve Automation Department at our Dallas headquarters, 4-STAR Hose offers engineered actuated valve assemblies that are custom built for your specific application.

Direct mount style ball valves are stocked in both carbon and stainless steel with threaded, socket weld and flanged end connections. Butterfly valves are available in both lug and wafer body styles with a variety of different seat and disc materials. Limit switches, solenoids and positioners can be added to ensure you have what the application demands.

All automated valve assemblies are tested and cycled before leaving our shop. A metal tag containing a unique serial number is added to all actuated packages for traceability purposes. Operate with peace of mind knowing you have exactly what is needed to get the job done right.
