

# Hose & Equipment Solutions for CNG Transportation

## WHY CHOOSE 4-STAR HOSE & SUPPLY?

- ✓ Same-Day Shipping
- ✓ Expert Technical Support
- ✓ Custom Assemblies
- ✓ Emergency Service Available

**4-STAR**  
**Hose & Supply**

A SINGER INDUSTRIAL COMPANY

## OUR LOCATIONS

### Dallas (Headquarters)

10704 Composite Drive  
Dallas, TX 75220  
P. (214) 351-6085

### Cleburne

610 West Industrial Boulevard  
Cleburne, TX 76033  
P. (817) 645-4427

### Midland/Odessa

8611 West I-20  
Midland, TX 79706  
P. (432) 685-7040

### Pleasanton/San Antonio

1501 2nd Street  
Pleasanton, TX 78064  
P. (830) 569-8484

# NATURAL GAS PRODUCTS

## Rubber & Plastic Hoses

- 5000psi thermoplastic hoses with abrasion and ozone resistant covers
- 2-ply textile and wire-reinforced rubber hoses available in 1" through 6" with EPDM, nitrile, and specialized rubber tubes
- High-Pressure Hydraulic Hoses up to 10,000psi available up to 2"

## Stainless Steel Metal Hoses

- Stainless lined double-braided and stripwound metal hoses in sizes 1/2" - 6"
- PTFE lined braided hoses with crimped end connections
- Also available with blue EPDM cover or premium wrapped cover options

## Dry Disconnect Fittings and Adapters

- Dry break fittings designed for the natural gas industry
- NPT, JIC, SAE, metric, and international thread patterns
- Industrial interchange, ISO-A, ISO-B, and flat-face adapters
- Male to female, reducing, and elbow configurations in multiple sizes

## Hydraulic Fittings

- Complete range of NPT, JIC, SAE, and metric thread configurations in steel construction
- TuffCoat™ plated finish for corrosion resistance with permanent crimp collar design
- Compatible with Gates, Parker, and other major hydraulic hose manufacturers

## Industrial Couplings

- Stainless steel or aluminum with cam-and-groove, wing-style, and ISO designs
- Quick-connect capability with positive locking mechanisms and safety features
- Available in 1/2" through 6" sizes with various end connection options

## Valves

- CSA and Firesafe API 608 approved valves in stock
- Ball Valves, Butterfly Valves, Tank Valves, Safety Valves, and more
- Custom actuated valve assemblies built for your specific application

## Gauges

- Stainless steel construction available in industrial, process, and sanitary designs
- Dry or liquid-filled models with diaphragm seals for vibration protection
- Vacuum to high-pressure ranges with thermometers and thermowells available

## Field Attachable Fittings

- Reusable design eliminates need for crimping equipment in field applications
- Available in carbon steel and stainless steel with multiple thread configurations
- Suitable for hydraulic, pneumatic, and industrial hose applications up to 5,000 PSI

## Filters, Regulators, and Lubricators

- Individual filters, regulators, and lubricators or complete FRL assembly units
- Desiccant and refrigerated air dryers for moisture removal
- Mini and compact sizes for space-limited installations
